THE HIDDEN PEOPLE™  
PRESENTS:

# Kodomo + Danger

BROOKLYN - NEW YORK  
ELECTRONIC IDM WITH LIVE VISUALS

## CONCERT Kodomo + Danger

We never regret allowing friends to persuade us to ditch watching old episodes of 'Next Top Model' and come to check out something [new](#). Whatever the cultural experience, we leave with rosy cheeks and a rosy heart. So, a friendly heads up for this Friday - come to Miscelânea, the mecca for new and interesting awakenings. Hidden People are showcasing New Yorkers experimental musician Kodomo and visuals artist Holly Danger. Barcelona has a vibrant scene in digital art and music and this event will see us make new international friends. With a background in classical music, video games and film scores, Kodomo uses soundscapes to push boundaries on how music makes you think and feel. Danger's near-360 visuals create an eerie and [atmospheric](#) backdrop to this. If we show some love, we'll maybe see our city play host to the next Mutek Festival and we'll [definitely be glad we came.](#) / C-Shell
